Sir:

In response to the Office Action dated October 15, 2004, Paper No. 7, please amend the

**IN THE CLAIMS**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-13 (cancelled)

14. (amended) ~~The communications system of claim 1, further comprising~~ An integrated personal communications system, comprising:

a telematics device, wherein the telematics device is coupled to a vehicle, wherein the telematics device can exchange data with at least one vehicle system, and wherein the telematics device comprises a service providing entity;

a remote device having a service requesting entity, wherein the remote device can access the telematics device utilizing the service requesting entity to exchange data with the telematics device and the at least one vehicle system, wherein the remote device can access the telematics device utilizing the service requesting entity to exchange data with the service providing entity, and wherein a selection is made between a first wireless network protocol and a second wireless network protocol to access the telematics device; and

a user profile, wherein a user is registered to the telematics device via the user profile, and wherein the remote device is registered to the telematics device, and wherein only if the user and the remote device are registered to the telematics device can the user access the telematics device and the at least one vehicle system and the service providing entity via the telematics device.

15. (original) The communications system of claim 14, wherein only if the user is registered to the telematics device and utilizes the remote device can the user exchange data with the telematics device and access and operate the vehicle.

Appl. No. 10/088,618  
Amdt. Dated November 29, 2004

registering a user to the telematics device via a user profile and registering the remote device to the telematics device, and wherein only if the user and the remote device are registered to the telematics device can the user access the telematics device and the at least one vehicle system and the service providing entity via the telematics device.

32. (original) The method of claim 31, further comprising accessing the vehicle only if the user and the remote device are registered to the telematics device and the remote device is utilized for access to the vehicle.

33. (original) The method of claim 31, further comprising utilizing the remote device and the user profile to preset the at least one vehicle system via the telematics device.

34. (amended) ~~The method of claim 31, further comprising:~~ In a telematics device, a method of integrating a personal communications system, comprising:  
~~selecting between a first wireless network protocol and a second wireless network protocol to access the telematics device;~~  
~~accessing the telematics device via a remote device utilizing a service requesting entity, wherein the telematics device comprises a service providing entity, wherein the telematics device exchanges data with at least one vehicle system, and wherein the telematics device is accessed to exchange data with the at least one vehicle system;~~  
~~accessing the telematics device via the remote device utilizing the service requesting entity to exchange data with the service providing entity; and~~  
registering a user profile to the telematics device, wherein the user profile controls which of the first wireless network protocol and the second wireless network protocol is permitted to access the telematics device.

Claims 35-47 (cancelled)
